

REENA THE MAGICIAN

These should be written in notebook with good handwriting

Page no 8

##A# **Question:**

1. When Reena saw the magician perform the trick, she immediately thought of her grandfather. What does this tell you about her?

**Answer (as would appear on page 8):

It shows that Reena deeply cares about her grandfather. She noticed he was always sad and wanted to use the magic trick to bring joy to him. 2. Imagine you are Reena. How would you use this magic trick?

(Example) I'd perform it for sick people in hospitals or lonely elderly people to spread happiness.

B. Read SECTION 2 and discuss in class.

Reena's magic trick did not work, but she was happy. Why?

Because even though the trick failed, her grandfather laughed when water splashed everywhere. Her real goal was to make him happy, and that worked!
